

## LEARNING SOLUTIONS

Learn at a pace that works with your busy schedule, offers instruction and coaching from the experts and gives you hands on experience completing a project in your institution.

The objectives of the EBP certificate program are:

- Describe the process of EBP using the Iowa Model
- Formulate inquiry using the PICO method
- Identify the levels of evidence and grading criteria
- Conduct a literature search
- Outline methods for critiquing literature
- Synthesize the research to make practice recommendations
- Understand successful strategies for implementing evidence in practice
- Prepare an EBP action plan for implementation and sustainability
- Formulate measurable outcomes for EBP project
- Evaluate the outcome measures
- Disseminate the finding of the EBP project
- Understand the basic principles, methods, and guidelines for publishing

*“ Working through my project with the mentorship of my colleagues and Dr. Marita Titler made me realize that one person can be the start of great changes in nursing practice to improve patient care. This program changed my way of thinking. I am always asking “what does the evidence show. ”*

*Kari Szczechowski’s  
Magnet Program Coordinator*

Practice  
Certificate  
Program*

# Teaching solutions that work for you.

NO SKILLS NEEDED, JUST A DESIRE TO LEARN.

Evidence based practice does not have to be scary and difficult. We break down EBP into simple parts that will get you up to speed in no time.

## THE BENEFITS TO YOU

- AQUIRE SKILLS TO LEAD EBP
- EARN 80 CE
- ACHIEVE A CERTIFICATE
- LEARN TO CREATE AN ABSTRACT
- WRITE AN EXECUTIVE SUMMARY
- RECEIVE A FREE COPY OF THE LATEST BOOK ON EBP AND NURSING

This EBP certificate program is like no other. The program is designed to facilitate nurses to become leaders in EBP while incorporating adult learning principles and on line learning strategies. It offers interactive education, coaching from the experts to complete a project in your institution, and teaches you how to share your work with your peers and leaders through abstracts and executive summaries, all from the comfort of your home or office.

## lead the change that you always wanted to see

### APPLICATION

You can fill out an application online at <http://www.nnpnetwork.org/> or email [mcleoda@med.umich.edu](mailto:mcleoda@med.umich.edu).

You will need approval from your supervisor, access to a health science librarian. A headset with a microphone, and an idea for a EBP project.

“The course provides an opportunity to learn the EBP process in a methodical, understandable way using helpful tools with an imbedded chance for practical application of the EBP process . It offers support and guidance throughout the EBP project implementation leading to an impactful learning experience!”

Sandy Schmitt RN, Administrative Manager

### ONLINE LEARNING

Learn from the comfort of your home or office in a few hours a week over 48 weeks by a leading experts. You will meet online every other week with off line activities on alternative weeks.

## CONNECT THE DOTS

Learn all of the EBP steps in a simple and understandable way. Learn to navigate literature searches, read and critique research articles, overcome obstacles to implementation, and how to disseminate the findings in abstracts and executive summaries.

## LEARN FROM THE EXPERTS IN EBP

You will complete a project of your choice in your unit or area. You will be provided guidance by an international leader in EBP and implementation science, Marita Titler PhD RN who has authored many research articles and books on EBP. Other faculty include Anne Marie McLeod DNP RN & Clayton Shuman PhD RN. You will monitor both process and outcomes of the project to ensure sustainability and to improve patient outcomes.

Anne Marie McLeod DNP RN
