

# Evidence Based Practice (EBP) Certificate Program

lead the change you  
always wanted to see

Marita G. Titler PhD RN FAAN

## Your Partner for EBP Success

### EBP EDUCATION PROGRAM LIKE NO OTHER

This program is like no other. It is designed with adult learning principles and on line learning strategies. It offers interactive education, instruction from the experts, and teaches you how to share your project.

You will receive hands on experience completing a project in your workplace with coaching from the experts. Evidence Based Practice does not have to be scary. We break down EBP into small parts to get you up to speed quickly.

*“The course provides an opportunity to learn the EBP process in a methodical, understandable way using helpful tools with an imbedded chance for practical application of the EBP process. It offers support and guidance throughout the EBP project implementation leading to an impactful learning experience!”*

*Sandy Schmitt RN, Administrative Director*

Learn from the comfort of your home or office in a few hours a week over 48 weeks by a leading expert in EBP & implementation science - Dr. Marita Titler. Other faculty include Anne Marie McLeod DNP RN & Clayton Shuman PhD RN.
